Equine Ultrasound-Guided Orthopedic Injection Techniques & Therapies

A 2 Day Practical Course

DATE - 23 & 24 March 2018

VENUE - Woodside Equine Clinic, Ashland, VA

LOCATION - Richmond, VA (Richmond Intl Airport)

CE - 15

PROF. ROGER SMITH - MA, VetMB, PhD, FHEA, DEO, Dipl.ECVS, ECVDI Assoc., MRCVS

Professor of Equine Orthopaedics, Royal Veterinary College, London, England

DR. WES SUTTER - DVM, MS, Dipl.ACVS

Equine Surgeon, Lexington Equine Surgery & Sports Medicine, Lexington, Kentucky

DR. DAVID STACK - MVB, MSc, MRCVS

Bourton Vale Equine Clinic, Cheltenham, Gloucestershire

This two-day highly practical course covers the theory and practical skills of performing ultrasound-guided orthopedic injections and ultrasound-assisted minimally-invasive surgery covering all regions of the musculoskeletal apparatus of the horse. Bringing together internationally renowned orthopedic specialists with a strong interest in this field, this course also provides a critical overview of conventional and biologic treatment modalities for orthopedic conditions.

This course is suitable for veterinarians from mixed or equine practice who have experience with ultrasonography. Between both afternoons, **7 hours of practical sessions** will give attendees plenty of opportunity to train the different injection techniques on horses and specimens and to get tips and tricks in **small groups (2 – 4 attendees per ultrasound machine)**, under the supervision of the specialists. Each attendee will rotate through the following practical stations: Tendon & ligament injections; Stifle, Hip & Shoulder Joint injections; Cervical facet joint injections; Injections of the Back; Lumbosacral & Sacroiliac injections; Injections of Bursae & Ultrasound-assisted Surgery.

Register before **SUNDAY 11th FEBRUARY 2018**
to qualify for the early booking discount.
